Messages of Congratulations

“On behalf of the government of New Zealand, I congratulate all 2014 Fulbright recipients.

These scholarships are some of the most prestigious available to New Zealand and American students and scholars. Your receipt of a Fulbright award is testament not only to your hard work and dedication, but also to that of your teachers and families. My challenge to you is to take this opportunity with both hands and use it to both enhance your own future careers and, in the grand tradition of Fulbright grantees, to be ambassadors for New Zealand and the US in your host communities. The friendships you forge on your Fulbright exchanges are essential strands to the future of our relationship with the United States. I wish you well.”

Hon Murray McCully
Minister of Foreign Affairs, New Zealand
Honorary Chairperson, Fulbright New Zealand

“Congratulations to this year’s Fulbright participants. Fulbright is the world’s flagship academic exchange, and your inclusion is a testament to your capabilities, academic rigor, and leadership potential.

Your 2014 program will lead to a lifetime of gains and of giving. Over the past six decades, more than 3,000 Kiwis and Americans have shouldered the honor and responsibility of the prestigious title, ‘Fulbrighter’. You are in esteemed company. 80 Pulitzer Prize winners count themselves as Fulbright alums, there are 29 heads of state or government in your ranks, and 53 Fulbrighters have won the Nobel Prize. I challenge you to bring the same commitment to excellence, dedication to service, and creativity that they have brought to the world as part of the wider Fulbright global community.”

Marie Damour
Chargé d’Affaires ad interim, US Embassy

“On behalf of Fulbright New Zealand’s Board of Directors and staff, our warm congratulations to all of this year’s Fulbright grantees. We are dedicated to providing the best possible exchange experience for our grantees, and we are confident that each of you will have a remarkable experience in the US or New Zealand which will stay with you forever.

Your awards continue a 65+ year tradition of Fulbright exchanges between New Zealand and the US, and you are joining a family of more than 3,000 esteemed alumni of New Zealand’s Fulbright programme. Our grantees and alumni have made tremendous contributions to society in our two partner countries and to the warm bilateral relationship between New Zealand and the United States of America.”

The Fulbright Programme

The Fulbright programme of international educational exchange was an initiative of US Senator J. William Fulbright from Arkansas, who in the aftermath of World War II believed that mutual understanding between different countries and cultures was crucial to ensure a peaceful future for the world.

The Fulbright Act, an ingenious piece of legislation passed by the United States Congress in 1946, directed proceeds from the sale of surplus war property, foreign loan repayments and reparations to fund the “promotion of international good will through the exchange of students in the fields of education, culture, and science.”

In Senator Fulbright’s own words, the Fulbright programme aims “to bring a little more knowledge, a little more reason and a little more compassion into world affairs and thereby to increase the chance that nations will learn at last to live in peace and friendship.”

New Zealand was the fifth country to sign up to the Fulbright programme by bilateral treaty with the United States of America, in 1948. Since then Fulbright New Zealand has granted more than 3,000 exchange awards, sending more than 1,700 New Zealand graduate students, artists, academics, teachers and professionals on exchanges to the US and welcoming more than 1,300 Americans on exchanges to New Zealand.

Fulbright New Zealand is jointly funded by the US and New Zealand governments with additional funding from award sponsors, private philanthropists and alumni donors. It is governed by a twelve member Board of Directors comprised of six New Zealanders and six Americans.

The Fulbright programme has been described as one of the largest and most significant movements of scholars across the face of the earth and now operates in over 155 countries, funding around 8,000 exchanges per year for participants to study, research, teach or present their work in another country.

The more than 300,000 Fulbright alumni worldwide include heads of state, cabinet ministers, ambassadors, politicians, judges, heads of corporations, university presidents, journalists, artists, professors and teachers.

Esteemed alumni of the Fulbright programme include Dame Marie Clay, Sir Kenneth Keith, Sir Wallace Rowling, Dame Anne Salmond, David Cunliffe, Gareth Farr, Witi Ihimaera, Michael King, Alan MacDiarmid, Bill Manhire, Ron Paterson, Jan Wright and many other prominent New Zealanders.

Fulbright grantees make the most of their exchanges to get to know and understand a different country and culture, to advance themselves academically or professionally and to make lifelong friendships and professional relationships. Many look back on their Fulbright exchange as a life-changing experience and a defining moment of their career.
